

Practice merger

Following agreement from NHS Warwickshire North Clinical Commissioning Group (CCG) and NHS England, Dr Reily & Partners and Dr Singh & Partners are pleased to announce they will merge from 1 April 2017.

The joining of the two Bedworth based centres will allow the merged practice to provide a wider range of comprehensive services to meet the diverse needs of our population.

We also envisage that by merging we will increase patient access, choice and availability.

Before the merger takes place, we want to ensure that we keep our patients fully informed of progress and do all we can to minimise any inconvenience during the transition period.

Feedback during this process is important to us and we are working with the Patient Participation Group members from the existing practices to shape how the practice will work together with patients, carers and our community.

If patients have concerns about the proposed changes, they can contact the Practice Manager on either of the surgeries main telephone numbers.
