

**Disclaimer:** NHS England require that the net earnings of doctors engaged in the practice is publicised and the required disclosure is shown below. However, it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice, and should not be used for any judgement about GP earnings, nor to make any comparisons with other practices.

All GP Practices are required to declare the mean earnings (e.g. average pay) for all GP's working to deliver NHS services to patients. In the last financial year the average of all GP's working at Bedworth Health Centre was £111,348.9 before tax and national insurance.
